Portfolio | Bengaluru Karnataka, India

SKILLS

Languages: Java, JavaScript (JS), SQL (Oracle)

Technologies & Tools: HTML, CSS, JQuery, Thymeleaf, JSP, Servlet, J2EE, Hibernate, SQL, IBM Websphere, Tomcat 9, Jenkins (CI/CD Pipeline), Github, Gitlab, Docker, Microservices, SpringBoot, Redis (Cache), Kafka, Apache Camel Route, Rest Api, AWS, EC2, Spring-MVC, Angular.

Soft Skills: Client Interaction, Problem Solving, Collaboration.

WORK EXPERIENCE

Clayfin Technologies Private Limited, Bangalore

May 2023 - Present

Java Software Developer

- Developed and maintained web applications using Spring MVC and Thymeleaf, optimizing Oracle database interactions for banking functionalities.
- Implemented SOAP transformations and integrated systems, while troubleshooting and resolving production issues to enhance performance.
- Utilized Jenkins CI/CD pipeline for application deployment to WebSphere and AWS EC2, ensuring smooth releases and minimizing production downtime.

EDUCATION

Masai School, Bangalore

May 2022 - Dec 2022

Full Stack Web Development

Visvesvaraya Technological University (VTU), Kalaburagi

June 2015 - July 2019

Bachelor Of Engineering (Civil)

CGPA: 6.9/10

PROJECT WORK

1. Trip Management System

Jan 2023 (Collaborative Project)

Project: RESTful Web API (Team of 5 | Duration: 5 days)

- Developed a RESTful web service using Java, Spring Boot, Hibernate, and MySQL, enabling CRUD operations for customers (self-management, booking) and admins (bus, hotel, and package management).
- Implemented booking and ticket generation modules and integrated secure login functionality using Spring Security.
- Structured consistent and user-friendly API responses; tested endpoints via Postman and documented APIs using Swagger.

Tech Stack : Java, Spring-Boot, Hibernate, MySql, PostMan, Swagger.

2. E-Commerce Shopping Web Application

Aug 2022 (Collaborative Project)

Project: ModeSens (E-commerce Web Application)

Tech Stack : HTML, CSS, JavaScript

- Developed an interactive e-commerce platform inspired by ModeSens, featuring user authentication, cart management, and payment integration.
- Implemented responsive navigation with dropdown menus and built the complete payment gateway flow including the cart page.
- Collaborated with a team of 4 to complete the project within 5 days, ensuring smooth UI/UX and consistent design using CSS Grid.

AWARDS AND CERTIFICATES

- SQL (Intermediate) Certificate - HackerRank
- Problem Solving (Basic) Certificate - HackerRank
- JavaScript (Basic) Certificate - HackerRank
- CSS (Basic) Certificate - HackerRank
- Java (Basic) Certificate - HackerRank
