SUMMARY

Experienced Java Backend Developer with 2.6 years of expertise in building scalable, high-performance applications using Spring, Hibernate, and database technologies. Skilled in optimizing system performance, integrating services, and ensuring smooth deployment through CI/CD pipelines, with a strong knowledge of microservices and Angular.

EDUCATION

- **MASAI SCHOOL, BANGALORE**
 Full Stack Web Development
  May 2022 - Dec 2022

- **AIET, KALABURAGI**
  Civil Engineering
  Jun 2015 - Aug 2019

TECHNICAL SKILLS

HTML	HIBERNATE
CSS	SPRINGBOOT
JAVA	SQL
JAVA SCRIPT	ANGULAR
AWS	MICROSERVICES
SPRING BATCH	KAFKA
JENKINS	DOCKER

SOFT SKILLS

- **COMMUNICATION TEAM-WORK**
- **REMOTE COLLABORATION**
- **PROBLEM-SOLVING**
- **CLIENT INTERACTION**

CERTIFICATIONS

- HackerRank SQL(Intermediate) — **Mar 2023**
- HackerRank Problem Solving(Basic) — **Feb 2023**
- HackerRank JavaScript(Basic) — **Feb 2023**
- HackerRank CSS(Basic) — **Feb 2023**
- HackerRank Java(Basic) — **Nov 2022**

EXPERIENCE

Java Software Developer
Clayfin Technologies PVT LTD   **May 2023 - Present**

- Developed and maintained web applications using Spring MVC and Thymeleaf, optimizing Oracle database interactions for banking functionalities.
- Implemented SOAP transformations and integrated systems, while troubleshooting and resolving production issues to enhance performance.
- Utilized Jenkins CI/CD pipeline for application deployment to WebSphere and AWS EC2, ensuring smooth releases and minimizing production downtime.

PROJECTS

- **Online Planter Application**
  Mar 2023(Individual Project)

  It is REST API which allows user to purchase the planter, plant and seed. Its a role based application where CRUD operations are performed by only Seller and User can only read the items.

  Tech Stack : Spring Boot, Spring Security, JWT Auth, Java, MySQL, JavaScript, HTML, CSS.
  Features : Login, signup, seller can perform CRUD operation and customer can only read the data (Product).

  Area of responsibility:
  - Spring Security (JWT Auth) with Role Based Application.
  - CRUD operations on Role based, Login and Signup with frontend.

- **Trip Management System**
  Jan 2023(Collaborative Project)

  It is RESTFULL Web API , It provides web Service which can used by Admin or Customer.

  Tech Stack : Java, Spring-Boot, Hibernate, MySql, PostMan, Swagger.
  Features : Customer can perform CRUD operations on self and can book package or bus. Admin has access to CRUD operations over bus, hotel and package.

  Area of responsibility:
  - My contribution in this project is Booking, ticket generation, login security implementation, structuring the responses to more understandable output.
  - Completed this project in 5 days with team member of 5.

- **MODESENS (CLONE)**
  Aug 2022(Collaborative Project)

  ModeSens is an American retail technology company providing men's, women's and children's apparel and accessories.
  Tech Stack : HTML. CSS & JavaScript.
  Features : Login, signup, cart, payment gateway, CSS grid and navigation with drop down options.

  Area of responsibility:
  - My contribution in this project is navigation and complete payment gateway including cart page.
  - Completed this project in 5 days with team member of 4.
